

## COVID-SAFE PLAN – 17 November 2020

Business name:

*Woodhouse Activity Centre*

Has a maximum capacity of:

*1000 people (excluding staff)*

is aware of current infection control and precautionary measures as recommended by health authorities and set out in this plan

agrees to comply with general and specific obligations under current Emergency Management Directions

this COVID-Safe Plan is available on-site

Venue areas		
Name	Area (in m <sup>2</sup> )	Max people (excluding staff)
Rymill Confrence Centre	234	58
Henry Rymill Room	42	10
Rymill Lower Pem Fooks Room	68	17
Rymill Lower Kitchen	45	11
Rymill Lower Activity Room	81	20
Hooper Bunkhouse Activity Room	130	32
Hooper Bunkhouse Group Room	98	24
Old Manor Dining Room	54	13
Old manor Sitting Room	35	8
Old Manor Ball Room	44	11
Old Manor Pavilion Area	162	40
Stags Store	352	88
Lones Hut	70	17

**Note:** lower capacity limits may apply to you as a consequence of existing regulation, legislation or licensing arrangements. The above figures only outline how many people you can accommodate per room/area while observing the 1 person per 4 square metres requirement.

Wetland Viewing Room	48	12
Crews Quarters	47	11
St George BaseCamp	150	37
Gilwell Basecamp	150	37
Brownsea basecamp	150	37
Chambers Chalet	30	7
Stephens Chalet	30	7
Hansons Chalet	30	7
Craft Centre	90	22
Open area for activity and campsite (outdoors)	540000	1000

## COVID-SAFE PLAN – 17 November 2020

### Summary

<b>Name of business</b>	Woodhouse Activity Centre
<b>Business or activity</b>	Outdoor and indoor sport Weddings
<b>Address of business or activity</b>	37 SPRING GULLY ROAD PICCADILLY SOUTH AUSTRALIA 5151
<b>Owner or Operator name</b>	James Sellers
<b>Plan completed by</b>	James Sellers
<b>Contact phone</b>	61403306455

### People capacity (excluding staff)

#### Venue areas

Name	Area in m <sup>2</sup>	Maximum number of people (excluding staff) in this area
Rymill Conference Centre	234	58
Henry Rymill Room	42	10
Rymill Lower Pem Fooks Room	68	17
Rymill Lower Kitchen	45	11
Rymill Lower Activity Room	81	20
Hooper Bunkhouse Activity Room	130	32
Hooper Bunkhouse Group Room	98	24
Old Manor Dining Room	54	13
Old manor Sitting Room	35	8
Old Manor Ball Room	44	11

Old Manor Pavilion Area	162	40
Stags Store	352	88
Lones Hut	70	17
Wetland Viewing Room	48	12
Crews Quarters	47	11
St George BaseCamp	150	37
Gilwell Basecamp	150	37
Brownsea basecamp	150	37
Chambers Chalet	30	7
Stephens Chalet	30	7
Hansons Chalet	30	7
Craft Centre	90	22
Open area for activity and campsite (outdoors)	540000	1000
<b>Total number of people (excluding staff) allowed on premises</b>	<b><u>1000</u></b>	

**Note:**

- To have more than 1,000 people, you must have a COVID Management Plan approved by SA Health.
- You can find more information and submit a COVID Management Plan via [www.covid-19.sa.gov.au](http://www.covid-19.sa.gov.au).
- Weddings are currently limited to 150 attendees, funerals to 50 attendees, and religious ceremonies to 100, all excluding any necessary staff. Additionally, licensed and hospitality venues are limited to 100 attendees. This also excludes any necessary staff.
- The above capacity limits apply **unless** lower capacity limits apply to your premises under existing legislation, regulation or licensing arrangements. For example: if you have a small venue liquor licence, lower capacity limits will likely apply to your premises than the ones listed above.

## Obligations

### General principles

#### General obligations - density

- The maximum number of members of the public per separate room or outdoor area must not exceed 1 person per 4 square metres of publicly accessible space.
- Note: this requirement does not apply to movable places.
- To be considered a separate room, a space must be enclosed by a ceiling, and substantially enclosed by floor to ceiling walls, regardless of whether the ceiling or walls or any part of them are permanent or temporary.

#### **General obligations - distancing**

- Have measures in place to maintain and encourage others to maintain the physical distancing principle of at least 1.5 metres separation. This includes:
  - Between groups within each room.
  - At entry and exit points.
  - This does not apply to those who attend as a group, such as members of the same household, family or people who otherwise regularly associate with each other.
  - For larger venues, complying with this requirement means that you will need to have crowd control measures in place, including in relation to queuing.

#### **General obligations – COVID-Safe Plan**

- A COVID-Safe Plan must be submitted by all individuals or organisations that own, operate or host Defined Public Activities as outlined by the Emergency Management (Public Activities) (COVID-19) Direction.

This includes most venues/facilities that were previously directed to close by Emergency Management Directions.

The form must be produced on request from an authorised officer.

#### **General obligations – capacity limits**

- No more than 1,000 people are allowed on site at any one time. To be allowed to have more than 1,000 people on-site, you will need to prepare a dedicated COVID Management Plan and have this approved by SA Health.

#### **General obligations – COVID Marshals (if relevant)**

- Any business or activity that requires a COVID Management Plan to be allowed to operate, must also have at least one dedicated COVID Marshal on site at all times while operating/open to the public.
- Visit [www.covid-19.sa.gov.au](http://www.covid-19.sa.gov.au) for more information on when a COVID Management Plan is required.
- This means a dedicated staff member who is 18 or older, has completed training as prescribed by SA Health, who is clearly identifiable as a COVID Marshal, and whose duty is to supervise and ensure that all people onsite comply with the COVID Management Plan, including distancing, density, hygiene and cleaning, infection control, venue layout, ensuring stock of items like sanitiser, and other requirements as relevant (such as keeping attendance records).
- If you operate 24/7 with staff not always onsite, you only need to have a COVID Marshal onsite at all times of high patronage.
- If you reasonably expect 200 people or more to be onsite at the same time, the COVID Marshal may not have any other duties than being a COVID Marshal.

- The owner, operator or person who is effectively in charge of a business or activity is responsible for ensuring that a COVID Marshal is in place.
- They must also keep records of completion of Marshals' training, and provide these records to an authorised officer on request.
- If your premises are used by different people or organisations, it is the responsibility of the owner or person with care/control/management of your premises to ensure that it is supervised by a COVID Marshal, if and when required.
- This will be the case when your premises are used by people conducting prescribed operations.
- In this case, you do not have to supply the COVID Marshal, but you must ensure the person conducting the prescribed operations supplies a COVID Marshal. You can determine how this is done - for example, you can include in the hiring terms and conditions that the hirer must have a COVID Marshal.
- Prescribed operations include: onsite purchase and consumption of food or beverages; sports clubs, religious or faith-based ceremonies other than weddings and funerals, swimming pools used by the public, gyms and fitness centres, any activity that requires a COVID Management Plan, supermarkets, hardware stores, distribution centres and associated transport operations.

**I understand that the above requirements are legal obligations under current Emergency Management directions. If I do not comply with these, I may face a fine of up to \$5,000**

Checked

## Outdoor and indoor sport

### Outdoor and indoor sports – temporary cancellation of activities

- All community sport training and matches are temporary cancelled until further notice.
- This includes indoor and outdoor sport, contact and non-contact sport, as well as all inter-school sport.
- Elite and professional sport, as well as intra-school sport (ie sport within an individual school, but not between different schools) is allowed to continue under existing rules.
- Outdoor fitness and physical recreation activities (ie running, cycling, outdoor personal training/bootcamp/similar classes) are also allowed to continue.

### Sporting clubs - COVID Marshals

- If you are a sporting club, you must have a COVID Marshal supervising your operations/activities at any time.
- This means a staff member charged with ensuring your COVID-Safe Plan is being effectively implemented and its requirements observed by staff, patrons and other people onsite. This includes distancing, density, hygiene and cleaning, infection control, venue layout and readiness, ensuring stock of items like sanitiser, and any other requirements as relevant (such as keeping an attendance record, if required).
- COVID Marshals must be 18 years old or older.
- COVID Marshals must have completed training as prescribed SA Health.
- COVID Marshals must take reasonable steps to make themselves visually identifiable as a COVID Marshal.
- If you reasonably expect 200 people or more to be onsite at the same time, your COVID Marshal may not have any other duties than being a COVID Marshal.

- If you operate 24/7 with staff not always onsite, you only need to have a COVID Marshal onsite at all times of high patronage.
- The owner, operator or person who is effectively in charge of a business or activity is responsible for ensuring that a COVID Marshal is in place.
- They must also keep records of completion of Marshals' training, and provide these records to an authorised officer on request.

#### Outdoor and indoor sport - food and beverages

- If you also offer the onsite purchase and consumption of food and beverages, your COVID-Safe Plan must also include the activity 'Hospitality' and its obligations and recommendations.
- These requirements do not apply to the onsite purchase and consumption of:
  - snack or hand-held foods or non-alcoholic beverages by people attending sport (incl. training), fitness or recreation activities
  - alcoholic beverages by spectators at sports event, provided alcoholic beverages are consumed while seated.

I understand that the above requirements are legal obligations under current Emergency Management directions. If I do not comply with these, I may face a fine of up to \$5,000

Checked

## Weddings (including ceremonies and receptions)

### Weddings - capacity

- Wedding ceremonies and receptions are currently limited to 150 attendees (excluding any necessary staff) regardless of a venue's overall capacity.
- Wedding ceremonies and receptions must also observe a density limit of 1 person per 4 square metres. Depending on the amount of available space, the application of this rule may lead to a lower capacity than 150.
- **Note:** weddings hosted at licensed venues or places of worship may have 150 attendees, despite the general capacity limit of 100 patrons at these venues. When hosting a wedding, licensed venues and places of worship may have up to 150 attendees on site (excluding any necessary staff). Only one wedding at a time can occur at licensed premises

### Weddings - Hygiene

- If serving food or beverages, or providing a liquid or edible items during the ceremony, no shared utensils may be used for that purpose.

### Weddings – attendance records

- You must keep an attendance record, including the name, phone number or email address, and date and time of people attending your ceremony.
- You must submit this record digitally via [www.covid-19.sa.gov.au](http://www.covid-19.sa.gov.au). A digital contact tracing record form has been created for this purpose and is available on this website for you to use.
- This attendance record may only be used for the purpose of contact tracing in relation to COVID-19.

I understand that the above requirements are legal obligations under current Emergency Management directions. If I do not comply with these, I may face a fine of up to \$5,000

Checked

## Recommendations

### General

#### Physical distancing

- Consider venue layout and move tables and seating to comply with physical distancing (1.5m separation) and density requirements (1 person per 4 square metres).
- Dedicate separate bathroom facilities for each separate room or area of a venue, where possible. Install signage to make members of the public aware of which bathroom to use.
- Dedicate separate entry and exit doors from separate rooms, and pathways to encourage “one-way traffic” where possible.
- Minimise mixing between separate rooms or groups of people as much as possible.
- Display signage at the venue entrance to instruct members of the public (and staff) not to enter if they are unwell or have COVID-19 symptoms.
- Encourage contactless payments to be used where possible.
- Encourage online bookings, reservations and pre-ordering where practical.
- Consider using physical barriers, such as plexiglass screens, in areas that involve high volume interactions (e.g. point of sale).
- Consider placing floor/wall markings or signs to identify 1.5 metres distance between people, particularly for queues and waiting areas.
- Monitor compliance with physical distancing requirements, with particular regard to areas where members of the public might congregate.
- Consider limiting the duration of any activity to 2 hours or less where possible.
- Encourage and support downloading of COVID-Safe App.

#### Hygiene

- Conduct frequent environmental cleaning and disinfection especially of touch-points (door handles, push plates including bathroom, EFTPOS facilities, counters, table tops, backs of chairs, food preparation areas etc).
- Refer to SA Health and the Australian Government's online COVID-19 cleaning guidelines and factsheets for detailed information on how to undertake effective cleaning and disinfection, including the products and methods to use.
- Frequency of cleaning will be determined by the turn-over of patrons – the more patrons over a period of time, the more cleaning required.

- Clean bathrooms more frequently than lower traffic areas, especially taps, door handles and other frequently touched points. Note that for certain activities, this is mandatory.
- Avoid providing/using shared items, equipment or utensils. Where this is not possible, clean them frequently or between use.
- Provide hand sanitiser on entry and exit of the premises.
- Consider installing signage on hand hygiene and cough etiquette.
- Ensure bathrooms have soap and running water for handwashing.
- Hand drying facilities must be made available. Provide disposable paper towels or hand dryers only. Cloth towels should only be provided if they are for single use.
- If using communal showers, toilets and change rooms, maintain and encourage physical distancing (1.5 metres distance) between people.

#### **Staff**

- Staff must stay home if they are sick, and go home immediately if they become unwell. Unwell staff with COVID-19 compatible symptoms should be tested for COVID-19 and remain in isolation until they receive a result. They can return to work once a test is negative and their acute symptoms have resolved.
- Minimise unnecessary contact between staff. Consider dividing staff into fixed teams or shifts that do not cross over to reduce the risk of transmission.
- Consider how you will minimise contact between staff and site visitors such as delivery personnel.
- Consider if staff need any additional training to be able to implement your COVID-Safe Plan.

#### **Ready for business**

- Print or download your COVID-Safe Plan.
- Print and display SA Health COVID-Safe materials (such as signage/posters on hygiene, physical distancing).
- Check the condition of equipment and facilities to ensure they are fully functioning, such as gas, electricity, toilets.
- If relevant, check food and beverages have not been contaminated or are now out of date.
- Ensure all staff are aware of this plan and the requirements that are relevant to them.
- Review obligations under existing legislation which will continue to apply.
- Check that COVID-19 safety measures are risk assessed to ensure that any newly implemented measures do not create new safety or security risks.

#### **Response planning**

- Ensure you and your staff have a basic understanding of how to respond to a case of COVID-19 at the workplace.
- A step-by-step summary of actions to take is:
  1. Keep others away from the confirmed or suspected case. Talk to and assess the person concerned; if they need urgent medical help, call 000 immediately.
  2. If the person is at your premises when symptoms emerge, assess the situation and risks. Talk to the person about your concerns and next steps. Seek government health advice.

3. If well enough, ask the person to go home, seek medical advice and testing for COVID-19, and self-quarantine until a result is returned. Ensure the person has safe transport to get home; if not, you may need to arrange for a taxi.
  4. Close the premises, ask all patrons and unnecessary staff to leave and arrange for a full environmental and disinfection clean. Open doors and windows to increase airflow.
  5. Notify SA Health via [HealthCommunicableDiseases@sa.gov.au](mailto:HealthCommunicableDiseases@sa.gov.au) so that they can trace any contacts of this person and contain the spread. SA Health may ask for any attendance records you may have kept to assist with this.
  6. SA Health will assess whether other staff, patrons or contractors may have been exposed to COVID-19, and direct them to self-quarantine at home. Note: this may include your staff; as such, it is recommended to have contingency plans in place.
- Regularly review your COVID-Safe Plan. Update it if needed, for example if your place of doing business or the services you offer change.

#### **COVID Marshals**

- COVID Marshal training courses prescribed by SA Health will be made available online at no cost. Visit [www.covid-19.sa.gov.au](http://www.covid-19.sa.gov.au) for more information.
- Owners, operators or people effectively in charge of a business or activity are legally responsible for the overall compliance with their COVID-Safe Plan or COVID Management Plan. This includes responsibility for their COVID Marshal(s) and other staff.
- COVID Marshals are not legally responsible for a venue's overall compliance or for the behaviour of individual patrons. Instead, they have a duty to their employer/person in charge of the activity to perform their role as COVID Marshal to the best of their abilities.
- COVID Marshals must be familiar with their business or activity's COVID-Safe or COVID Management Plan. Owners, operators or people effectively in charge of a business or activity should provide a copy of their Plan to their COVID Marshal(s) and discuss the Plan and its implementation with them. This gives COVID Marshals the information they need to take reasonable action to ensure staff, patrons and other people comply with the Plan and the rules and restrictions in it.
- Beyond the mandatory requirements around age and training, it is recommended that people nominated as COVID Marshals have good customer service, people and communication skills, a solid knowledge of the business or activity's operations, and sufficient experience and authority among staff to supervise and give limited directions.

**I understand these recommendations and will implement them where I can, to the extent possible, to ensure my operations are COVID Safe**

Checked

### **Outdoor and indoor sport**

#### **Outdoor and indoor sport – distancing**

- Consider minimising gatherings of adults/spectators, with a recommendation of one caregiver per participant.
- Encourage participants to follow the AIS advice of to “get in, exercise, and get out”.

- Follow the Australian Institute of Sport “Framework for Rebooting Sport in a COVID-19 Environment” for individual sports.
- Once competitions commence, fixtures should reduce the number of teams in contact with each other. For example:
  - Commence competitions within a club between players of similar level
  - Once competition commences between clubs, consider redesigning fixtures such that a reduced number of clubs play against each other

**Outdoor and indoor sport – hygiene**

- Discourage communal food and drink during training and matches, e.g. avoid oranges at half time, etc.

**I understand these recommendations and will implement them where I can, to the extent possible, to ensure my operations are COVID Safe**

Checked

**Weddings (including ceremonies and receptions)**

**Weddings - distancing**

- Advise attendees to avoid physical closeness (hugging, kissing, hand-shaking) where possible, except between immediate family members.
- Establish layout/seating arrangements to allow for physical distancing.
- Prayer and similar arrangements should follow 1.5 m physical distancing.

**Weddings - hygiene**

- If prayer mats are used, people should bring their own.
- Encourage ablution at home.

**Weddings - singing and live music**

- It is recommended to avoid singing by choirs or groups. If you do have choirs/singing groups at your wedding, they must be physically distanced as much as possible (because of increased droplet spread and therefore risk during singing activities), both from each other and particularly from other attendees.
- If you have live music at your wedding, please ensure the performer(s) are physically distanced from other attendees as much as possible, particularly if singing is involved.

**I understand these recommendations and will implement them where I can, to the extent possible, to ensure my operations are COVID Safe**

Checked

**Notes (optional, for use by owner/operator)**
